Responsible Alcohol Beverage Service means having owners, managers, and servers/sellers who understand: (1) the importance of checking age identification of customers who appear under age 30; (2) how to identify fake IDs and what to do once a fake ID is detected; (3) how to recognize and handle situations in which legal age adults are attempting to buy alcohol for underage individuals; (4) how to identify intoxicated customers; and (5) how to refuse service to underage or intoxicated customers. Training in these methods is required by Rhode Island law.
