

clean water starts at home

Keeping Livestock on Small Acreages

Learn to protect

- ▣ Your drinking water well
- ▣ Animal health and well-being
- ▣ The surrounding environment

Be a good steward and a good neighbor.....How? ==> ==>

University of Rhode Island Cooperative Extension

Raising healthy, productive animals goes hand-in-hand with protecting the environment and our family's health - it is all interconnected.

We start with proper:

- Manure storage and recycling
- Livestock yard management
- Pasture management
- Pond and stream buffers

View our website at www.uri.edu/ce/healthylandscapes or call (401) 874-2249 for more information including:

- A set of fact sheets and worksheets to assess your own livestock management
- Educational events
- Demonstration sites

THE
UNIVERSITY
OF RHODE ISLAND

Livestock on Small Acreages: Protecting Water Resources and Health is a project of the University of Rhode Island Cooperative Extension, College of the Environment and Life Sciences. It is funded by the USDA NIFA, National Integrated Water Quality Program.
