

3. May 10, 2007 TR55 Workshop Planning Committee

* Please note date change from last advisory committee notice.

Committee Charge: Assist in organizing the May 10 workshop "TR55 for Plan Reviewers"

This workshop is designed for town engineers, state agency staff, and others responsible for stormwater plan reviews. Others will find it useful as a refresher and guide to submitting complete and accurate plans to speed permit review. This will provide a foundation for future training on use of TR55 for LID applications under the updated RIDEM Storm Water Design standards. Trainers include staff of the USDA Natural Resources Conservation Service and RIDEM, with participation by RI CRMC.

Location: RIDEM, Room 300, 235 Promenade Street, Providence RI. Other details to be determined.

Timeline: March 29 - May 10, 2007 About 7 weeks total. Actual time investment very minimal.

Responsibilities

a) Review workshop agenda and training materials. Offer comments by email or if available, participate in a planning meeting.

b) Publicity

- Assist in workshop publicity by distributing flyers or the workshop notice to your own email lists as appropriate.
- Include workshop notice in professional newsletter /public outreach materials.

Schedule

Please contact Kris Stuart, Southern RI Conservation Service to indicate interest in assisting by Thursday **March 29, 2007**. Email: kris@srncd.org or Tel: 284-1885. Agenda review and planning meeting will be scheduled based on availability of those involved.
