- Water/Sewage Treatment
- Vacant Land
- Transitional
- Surface Water
- Towns
- Wellhead Protection Areas
- Hunt Groundwater Reservoir

Build-out Analysis

This Future Land Use Map is based on zoning regulations in the towns of East Greenwich, Exeter, North Kingstown, and Warwick.

Development constraints used for the Build-out Analysis included wetlands, seasonal high water table soils (0-1.5 ft.), land within a 200 ft. riparian buffer, and protected lands.
