Justin Jobin	050113	J.D. Riser Installation Co.	401-624-7415	Yes	No	No

Recommendations to homeowners before having septic system inspected:

- It is a good idea to get multiple bids before having your system inspected
- Make all information needed in data collection step available to inspector
- Ask inspector if discounts are available for locating inspection ports on septic tank and removing soil covering inspection ports
- Ask inspector about retrofitting septic tank with PVC risers to grade for ease in future inspections
- Ask inspector about discounts for inspecting and pumping at the same time
- Make sure you are home when you schedule an inspection so that you can answer any questions the inspector may have, and you can grant access to interior of home if needed
- Follow inspector while he/she is performing duties, and ask questions so that you can stay informed of how your septic system is operating
- Make sure that the inspector gives you a copy of the completed inspection report and a bill that details all charges associated with the inspection procedures
