100+ sets	\$10/set	
Chepachet Village Decentralized Wastewater Demo Project	Please call for pricing	
<b>TOTAL COST</b>		<b>\$</b>

## Local Wastewater Treatment to Support Better Community Design: A Three-Volume Series

Overview of conventional and alternative onsite wastewater technologies available to homeowners and communities

Case studies illustrating use of alternative systems as repairs to address unique site constraints and meet specific treatment objectives

A community guide to use of onsite wastewater treatment systems and creative development design to achieve more compact "smart growth" land use

**Available in April 2005 at the URI Cooperative Extension website.** Condensed from the "Creative Community Design and Wastewater Management," prepared for the National Water Resources Capacity Development Project at [www.ndwrcdp.org](http://www.ndwrcdp.org).

## Chepachet Village Decentralized Wastewater Demonstration Project

Demonstrates how the town of Glocester, Rhode Island turned a wastewater crisis into an opportunity to address immediate septic system failures using alternative systems and use computer mapping to evaluate village treatment needs. **Available at** [//www.uri.edu/ce/wq/mtp/html/publications.html](http://www.uri.edu/ce/wq/mtp/html/publications.html)

**Order printed reports using  
the attached order form.**
