

Global Masters in Logistics (GML)

Delivered by

RMIT, Australia

University of Hull, UK

INHA University, Korea

ISEL Le-Havre University, France

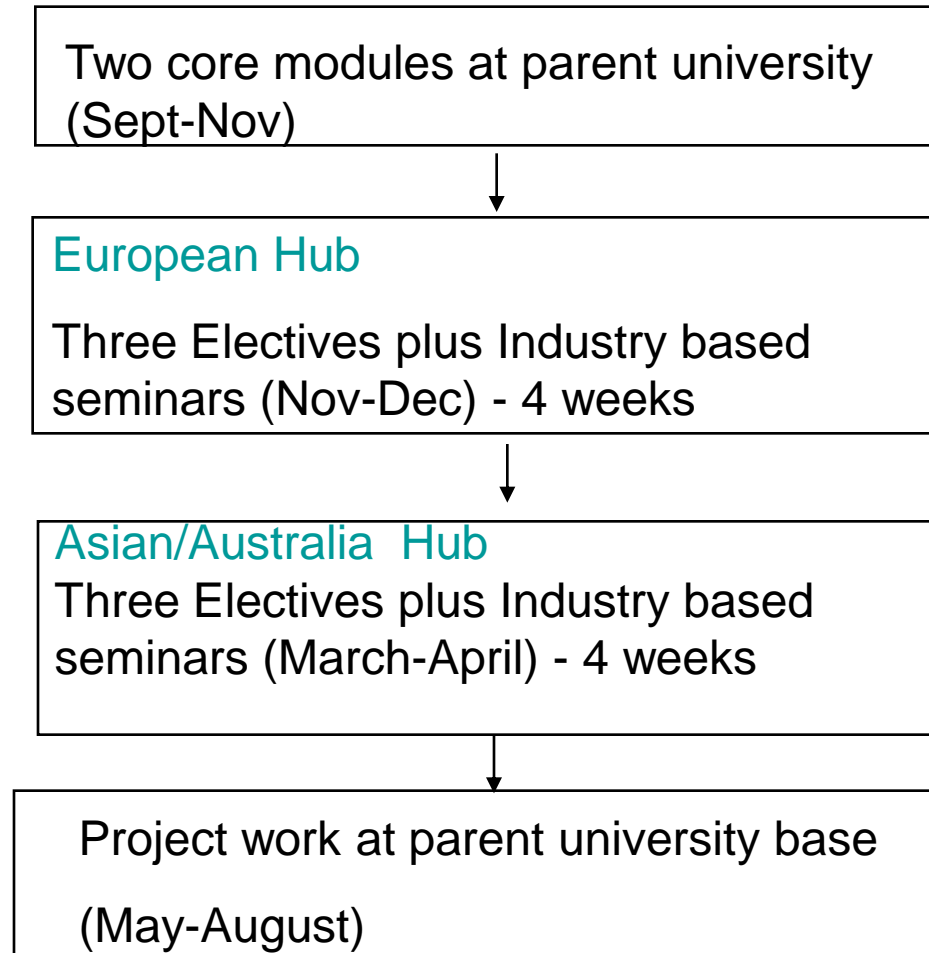

GML Intake and Regulations

- Total intake of 20 students - 5 from each university from their existing MSc Programme
- Students pay tuition fees to the parent university
- Students pay for their own travel
- Students pay from their own accommodation and subsistence but will be assisted by host university in the search.
- Successful students will be awarded Masters degree from the parent university along with an additional document signed by the Deans of the four universities confirming that the students have followed GML.

GML Structure

- Duration Twelve months
- Students complete 12 modules/courses for the award.
- Two core courses at parent university
- Six elective modules/courses in logistics and SCM at two global hubs
- Industry based seminars module (two modules/courses equivalent)
- Project (two modules/courses equivalent)

Basic Structure

Modules/Courses
