## ➤ - Evaluation : positive/perfectible aspects

### ❖ Positive aspects :

- Constant increase of exchanges with GU8 partners (Students and Fellows) thanks to new programmes (such as Global Leadership MBA Programme)
- Increasing interests shown by mutual visits of delegations

Remarks: Importance of Professor Exchanges before students in order to develop the common projects with coherence.

**LE HAVRE UNIVERSITY**

## ❖ Perfectible aspects:

- Need to extend and diversify the partnership within GU8 more widely for students and fellows exchange : for the moment, it's rather partial and concentrated to some universities.  
(For Ex. Haïfa, Hawaii, UW are not yet as active as are prepared to welcome them.)

## ♥ Intensive French language programme :

For foreign students following directly all courses with local students in their speciality, Le Havre University offers them **3 hours French language courses per week** during their study. Furthermore, these students can benefit from the Intensive French language training courses at the beginning of **September (60 hours)** and at the beginning of **February (25 hours)**.

**LE HAVRE UNIVERSITY**

♥ **Syllabus in English in ISEL (Institut supérieur d'études logistiques) :**

**ISEL offers a special syllabus in English for foreign students : spring semester (end of Jan. to June) : 30 credits**

**A student hoping to achieve 30 ECTS (or more) in order to validate his/her semester (according to the European scheme) would have around 15 hour of classes a week (number of students is limited to 12 students maximum).**
