

## LIB 120 Semester Project -- The Paper Trail Research Summary Guidelines

---

One of the last pieces of the Paper Trail you will need is your Research Summary. This should be a 1-2 page summary of how your research went over the course of the semester.

Look back over the course and summarize your answers to the following questions:

- How did the research process go overall?
- What was the hardest part? What was the easiest part?
- Where did you find the best results for your research?
- Was there anything you found particularly useful?
- Have your research skills changed over the course of the semester? How?

Like your Research Logs, this does not have to be particularly formal or fancy, but it needs to be in complete, grammatically correct sentences, with correct spelling, capitalization, and punctuation. It should be typed, double spaced, in no more than 12-point font.

Please put your name and the date on your Research Summary, and include it in your project.
