Site Description

Practice site: We are 221-bed community teaching hospital located in the south shore of Boston. We provide care to patients in ICU/CCU, oncology, geriatrics, maternity, pediatrics, orthopedics and nephrology. Our facility is a teaching hospital for surgical residents.

Student Activities

Our Pharm D candidates rotate between surgical rounds with the surgical residents, Critical Care Rounds with the Vice President of Medical Management and pain management rounds with Laura Murphy, a Patient Care Manager and an anesthesiologist. Our students are also involved in adverse drug reactions investigations, discharge medication counseling and pediatric dosing review.

Students may observe general surgery for one to two days in the operating room.

Interested students may also assist the Director of Pharmacy with investigations of drug diversion.
