\_\_\_\_\_

**PI's Signature**

**Sizes are lecture bottles (LB), small (S), medium (M) and large (L). Give ft<sup>3</sup> if known.  
Hazard classes are Corrosive, Explosive, Ignitable, Oxidizer, Toxic, or Reactive with air or water.**

| FULL CHEMICAL NAME | VENDOR<br>* | HAZARD CLASS | SIZE<br>LB/S/M/L | EMPTY<br>Y/N | REMARKS |
|--------------------|-------------|--------------|------------------|--------------|---------|
|                    |             |              |                  |              |         |
|                    |             |              |                  |              |         |
|                    |             |              |                  |              |         |
|                    |             |              |                  |              |         |
|                    |             |              |                  |              |         |

**\* Note: Gas cylinders should be returned to the original vendors as promptly as possible. Somebody is paying monthly rental fees (demurrage) on the tanks.**

**If the lecture bottle label is missing, indicate cylinder color scheme from top.**
